ACNB CORPORATION DECLARES AND INCREASES SECOND QUARTER CASH DIVIDEND

GETTYSBURG, PA, April 22, 2019 --- The Board of Directors of ACNB Corporation recently approved and declared the payment of the regular quarterly cash dividend. The cash dividend of \$0.25 per share is payable on June 14, 2019, to shareholders of record on May 31, 2019. This per share amount reflects a nearly 9% increase from \$0.23 per share, and will result in aggregate dividend payments of approximately \$1.8 million to ACNB Corporation shareholders in the second quarter of 2019. In comparison to a year ago, ACNB Corporation paid a \$0.23 dividend per share in the second quarter of 2018.

“ACNB Corporation is proud to continue its long history of shareholder commitment with payment of a solid quarterly cash dividend through times of both economic expansion and recession,” said James P. Helt, ACNB Corporation President & Chief Executive Officer. “In fact, coupled with the 15% increase in the quarterly dividend amount per share in June 2018, ACNB Corporation shareholders will benefit with an aggregate 25% increase in the quarterly dividend amount paid per share since the first quarter of 2018. Strong financial performance attributable to the hard work of many at ACNB Corporation’s subsidiaries made this possible.”

With this second quarter dividend, the regular quarterly cash dividends paid to shareholders for the first half of 2019 will total \$0.48 per share. This per share amount will result in a total of more than \$3.3 million paid to shareholders through the first two quarters of 2019. In comparison to a year ago, ACNB Corporation paid a total of \$0.43 per share for the first two quarters of 2018 and an aggregate of more than \$3.0 million to shareholders during the same period.

FORWARD-LOOKING STATEMENTS - In addition to historical information, this press release may contain forward-looking statements. Examples of forward-looking statements include, but are not limited to, (a) projections or statements regarding future earnings, expenses, net interest income, other income, earnings or loss per share, asset mix and quality, growth prospects, capital structure, and other financial terms, (b) statements of plans and objectives of management or the Board of Directors, and (c) statements of assumptions, such as economic conditions in the Corporation's market areas. Such forward-looking statements can be identified by the use of forward-looking terminology such as "believes", "expects", "may", "intends", "will", "should", "anticipates", or the negative of any of the foregoing or other variations thereon or comparable terminology, or by discussion of strategy. Forward-looking statements are subject to certain risks and uncertainties such as local economic conditions, competitive factors, and regulatory limitations. Actual results may differ materially from those projected in the forward-looking statements. Such risks, uncertainties and other factors that could cause actual results and experience to differ from those projected include, but are not limited to, the following: the effects of governmental and fiscal policies, as well as legislative and regulatory changes; the effects of new laws and regulations, specifically the impact of the Tax Cuts and Jobs Act and the Dodd-Frank Wall Street Reform and Consumer Protection Act; impacts of the capital and liquidity requirements of the Basel III standards; the effects of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Financial Accounting Standards Board and other accounting standard setters; ineffectiveness of the business strategy due to changes in current or future market conditions; future actions or inactions of the United States government, including the effects of short- and long-term federal budget and tax negotiations and a failure to increase the government debt limit or a prolonged shutdown of the federal government; the effects of economic conditions on current customers, specifically the effect of the economy on loan customers' ability to repay loans; the effects of competition, and of changes in laws and regulations on competition, including industry consolidation and development of competing financial products and services; the risks of changes in interest rates on the level and composition of deposits, loan demand, and the values of loan collateral, securities, and interest rate protection agreements, as well as interest rate risks; difficulties in acquisitions and integrating and operating acquired business operations, including information technology difficulties; challenges in establishing and maintaining operations in new markets; the effects of technology changes; volatilities in the securities markets; the effect of general economic conditions and more specifically in the Corporation's market area; the failure of assumptions underlying the establishment of reserves for loan losses and estimations of values of collateral and various financial assets and liabilities; acts of war or terrorism; disruption of credit and equity markets; the ability to manage current levels of impaired assets; the loss of certain key officers; the ability to maintain the value and image of the Corporation's brand and protect the Corporation's intellectual property rights; continued relationships with major customers; and, potential impacts to the Corporation from continually evolving cybersecurity and other technological risks and attacks, including additional costs, reputational damage, regulatory penalties, and financial losses. We caution readers not to place undue reliance on these forward-looking statements. They only reflect management's analysis as of
